

Dorgard SmartSound™

A smarter way to keep your fire doors open

Dorgard SmartSound is a wireless solution for legally holding open fire doors, releasing them to close when the fire alarm sounds.

Benefits

Improved sound recognition with new SmartSound technology

Peace of mind with a two-year warranty

Assists with germ control

Can be fitted to any door

Easy to configure to your environment

Installed easily in under five minutes

Dorgard SmartSound™

Dorgard SmartSound keeps your fire doors open legally, and allows them to automatically close when the fire alarm sounds.

SmartSound listening technology means Dorgard SmartSound can distinguish between your fire alarm and common background noises, such as vacuum cleaners.

The SmartSound has noise filtering technology which allows for more precise listening

“ It’s ideal for the kitchen as it means we can air the room out. The best part is the amount of natural light brought in by having the doors open. ”

Sarah Akehurst, Assistant Manager

“ I’d recommend Dorgard SmartSound to anyone. We’ve had great customer service from Fireco, very helpful. It’s really been tremendous. ”

Bob Field, Maintenance Manager
